

Emergency Preparedness and Resilience

Mission: Assist citizens when the need to manage unexpected emergencies occurs, including severe weather, flooding, power loss and man-made crises. Goals include helping citizens enhance their self-sufficiency and resilience when dealing with such crises. This will be accomplished by providing appropriate educational materials, in-person training, and coordination with City agencies as deemed necessary.

Organizations that can provide general information related to emergency preparedness and resilience include:

[Federal Emergency Management Agency](#) — FEMA

[American Red Cross](#)

Sub Areas of Focus:

Disaster Education and Preparation

FEMA provides a range of publications to help individuals and communities to prepare.
