EDWARD V. DUBOWSKI
FIRE CHIEF

Date: _____

I am aware that the City of Park Ridge Fire Code requires the installation of a key box on my business or building.

I understand that the purpose of the key box is to allow the fire department to enter my business or building when it is unoccupied in order to investigate an emergency or possible emergency.

I understand that in the event of an incident, if there is no key box, the fire department may have to force entry into my business or building.

I understand that although the fire department will make every reasonable effort to minimize damage while they are forcing entry, significant damage may occur.

I also understand that the fire department is an emergency service and cannot always wait for a key holder to arrive on the scene. The decision to wait rests exclusively with the ranking fire department member on the scene.

Nevertheless, I am refusing to install a key box at this time. I will accept full responsibility for any damage resulting from the fire department's attempts to enter my business or building.
